Item Code	Group	Thumbnail	Description
	Block-Briefing		ORIGINAL BRIEF DETAILS ONLY REFER TO INFORMATION BELOW FOR CONSTRUCTION DETAILS Please use WSK60309799 pattern as a block. See below brief, measurements and sketch for updates to block: Change to a waistband Add tradition fly opening and profile stitching but keep hook and bar closure and internal jigger button on waistband. Add front scoop pockets, fob pocket, back yoke (delete darts) and back pockets as per WPA60317524. Delete hem facing and have a raw hem. Add belt loops as specified.
	Cutting Notes		* Lay fabric right side up. * Allow fabric 12 hours to relax after laying up and before cutting. * Cut fabric on straight grain. * Cut all sizes one way
	Grading Comments		* Please refer to the Country Road grading spec information together with the measurements on the product specification supplied.
	Wash		AT BRIEF - WR0129 - AGED MID WASH * Please match the colour to WPA60317854 Barrel Jean * Please match handfeel to header * Abrasion as per WPA60317854 Barrel Jean * Dry processing intensity (brushing and whiskers) as per WPA60317854 Barrel Jean at front thigh, back seam and rise PLEASE SEND WASH OPTION ON P1 SAMPLE
	Wash		P1 - 27/01/26 - WR0129 - AGED MID WASH Base color: Approved Tone: Approved Abrasion: Can we get a slightly more contrast in the highs and lows over the waistband and front fly and pocket area? Dry process: FRONT - reduce the brushing intensity by 20%. The brushing position looks too close to the side seam. Pull away from the side seam approx. 3cm. BACK - reduce the brushing intensity by 20%. Lower the position by 2cm so that it is not as light up near the waistband. Hand feel & drape: Approved

Comment: PLease update the BOM.

Comments on measurements:

1. We would suggest measurement as below.

CF length - Mini - min standard is 90cm from HSP-Suggest CF length from top waistband edge:41.50cm

Side seam length - Mini - min standard is 90cm from HSP-Suggest Side seam length from top waistband edge:43cm

CB length - Mini - min standard is 90cm from HSP-Suggest CB length from top waistband edge:44cm

All POMs are in tolerance.

****GD - MEASUREMENTS HAVE BEEN AMENDED. PLEASE REFER TO MEASUREMENT CHART AND COMMENTS FOR INSTRUCTION**Comments on construction and workmanship:1.Please adjust sketch back pocket matching witch construction. ****GD - UPDATED**2.We have suggested the waistband 2 pieces so please advise on this matter for next sample. ****GD - PROCEED AS P1 SAMPLE**Comments on trims:

CRG Comments:

WSK60320228 - P1 Sample - Fitted 22/1/26 on Holly - with GD/RG/TT/MR
Fitted Proto 1 sample labelled (#1)

Please proceed to P2 sample with the below changes.
Please send 1 x P2 sample for approval.

Please follow below points for MEASUREMENT ISSUES

- 1.Please note revised spec measurements. Comments have been made in the "Correction" column on the measurements page.
- 2.Increase the 1/2 waist circ by 3.2cm.
- 3.Shorten the length by 4cm. We want the skirt to sit lower on the hip, so reduce the length by lowering the waistband position. The lower waistband seam will revise the position the 1/2 hip is measured, so this measurement has changed.
- 4.Reduce the fly length and width to be the same as WST60320226.
- 5.Change the CF closure to be a tack button so delete the internal jigger button and waistband extension.
- 6.Move the side back belt loop towards the side seam by 1.5cm

Please follow below points for CONSTRUCTION AND WORKMANSHIP ISSUES

- A.Please ensure the back yoke tension is not too tight and does not cause bubbling or distortion along the back yoke seam.
- B.If trims have not been approved in the BOM please reach out to the design team.
- C.Care label has been approved in the P1 Comments and in BOM.

SAMPLE COMMENTS Proto 1	Sample Comments 1	Sample Colour :	Sample Size :
-------------------------	-------------------	-----------------	---------------

- D.Remaining construction to be as per sample.
- E.Ensure all workmanship is to CR standard.

Please follow below points for WASH EFFECT

- I. Base color: Approved
- II.Tone: Approved
- III.Abrasion: Can we get a slightly more contrast in the highs and lows over the waistband and front fly and pocket area?
- IV.Dry process: FRONT - reduce the brushing intensity by 20%. The brushing position looks too close to the side seam. Pull away from the side seam approx. 3cm. BACK - reduce the brushing intensity by 20%. Lower the position by 2cm so that it is not as light up near the waistband.
- V.Hand feel & drape: Approved

END

4/2/26 - COMMENT UPDATE

PLEASE CHANGE THE HEM FINISH TO BE A STANDARD 12MM DOUBLE NEATEN

Supplier Sample Reviewed By: Sunny/Giang Pham

Supplier Comments:Comments on construction and workmanship:

- 1.The sketch missing button at waistband. Please amend for accordingly; **GD - updated
- 2.Please review sample and update opposition for front pocket dart due to not matching with construction showing 1.5cm from side seam (they should be aligned with the fob pocket edge stitch); **GD - updated
3. As discussed via email, we've added a single needle 0.5cm above the hem edge to prevent more fraying. Please review and advise comments; **GD - hem changing to turnback. I will get sketch updated

SAMPLE COMMENTS Proto 2

Sample Comments 1

Sample Colour :

Sample Size :

Please follow below points for MEASUREMENT ISSUES

1. Please note revised spec measurements. Comments have been made in the "Correction" column on the measurements page.
2. Maintain the 1/2 hip circ as 52cm but reduce the curve over the side seam. Gently straighten the side seam curve at the hip and add this back onto the CB seam, adding a tiny bit of curve there.
3. Reduce the 1/2 hem circ by 2.5cm. Most of this needs to be removed from the back hem, ensuring there is still balance to the side seam.
4. Increase the fly profile topstitch width by 0.2cm.

Please follow below points for CONSTRUCTION AND WORKMANSHIP ISSUES

- A. Add double neaten hem.
- B. If trims have not been approved in the BOM please reach out to the design team.
- C. Leather patch and brand labels have changed from WHITE to BLACK
- D. Care label has been approved in the P1 Comments and in BOM.
- E. Remaining construction to be as per sample.
- F. Ensure all workmanship is to CR standard.
- G. Flare the twin needle at the top of front rise so that it is the same as WST60320226

Please follow below points for WASH EFFECT

- I. Base color: Please change to be the same color as WPA60318770.
- II. Tone: Please change to be the same color as WPA60318770.
- III. Abrasion: Natural highs and lows from washing. Take care that no breakthrough appears at bottom of fly.
- IV. Dry process: Brushing intensity as per WPA60318770. FRONT - Position needs to have the most intense brushing central on each side front panel and blending out to nothing at bottom of pocket opening and approx. 4cm from side seam. CF seam and hem. BACK - Brushing placement to be placed below pocket opening and continue below pocket through the seat.
- V. Hand feel & drape: Approved
